

HOSPITALIS recognized as a « Sample Vendor » by GARTNER in the Hype Cycle for Healthcare Provider Applications, Analytics and Systems, 2013

Montreal, Qc. – 30 Sept 2013: HOSPITALIS, a leading provider of clinical solutions for patient's pathway, today announced that it has been identified as a sample vendor in the Gartner « Hype Cycle for Healthcare Provider Applications, Analytics and Systems, 2013 » report.

Gartner's Hype Cycle is a critical input for healthcare leaders in balancing seemingly insatiable healthcare IT demand with limited resources. It offers a timely, objective evaluation of the exploding variety of important applications and analytics innovations tackling healthcare's major challenges. In this new report, HOSPITALIS has been listed under two (2) categories, which are « Care Coordination Applications » and « Accountable Care ».

« We are proud to be recognized by Gartner and believe that today's announcement follows a string of strong showing for HOSPITALIS solutions capabilities to assist healthcare providers in their quest for better care, better health at better cost », said Marc Lavallée, Vice-president – Marketing & Business Development.

According to the report, the « Care Coordination Applications » emerging market is considered to bring high benefits and is a necessary piece of the total IT support that HDOs need. As for the « Accountable Care » emerging market it's considered as transformational and will arise issue such as the effectiveness of quality measures and the ability to track all costs for patients.
